The extraordinary true story of the Roth family, who lived through the catastrophic economic collapse of Zimbabwe in 2008, when inflation reached an unimaginable 231 million percent per year.

In 2008, Zimbabwe experienced one of the most severe cases of hyperinflation in history. At the peak, prices were doubling every 24 hours.

Money became worthless, and people resorted to bartering and other creative ways to survive.

The Roth family, who had lived in Zimbabwe for generations, was caught in the middle of this chaos. They witnessed firsthand the devastating effects of hyperinflation on their country and their own lives. In this gripping memoir, Peter Roth tells the story of how his family survived the economic collapse, and how they emerged from the experience stronger than ever.

The Hard Boiled Egg Index is a powerful and inspiring story that offers a unique perspective on one of the most challenging times in Zimbabwe's history. It is a must-read for anyone interested in economics, history, or survival.
