Ryszard Kapuscinski's *Travels With Herodotus* is a journey through time and space, a masterpiece of travel writing that explores the intersection of history, culture, and human experience. Kapuscinski, one of the greatest travel writers of our time, follows in the footsteps of the ancient Greek historian Herodotus, retracing his epic journey through the ancient world.

Herodotus's *Histories*, written in the 5th century BC, is one of the first works of history ever written. It is a vast and sprawling work, covering the history of the world from the earliest times to Herodotus's own day. Herodotus was a tireless traveler, and his *Histories* are full of vivid descriptions of the people and places he visited.

Kapuscinski's *Travels With Herodotus* is a modern-day retelling of Herodotus's journey. Kapuscinski follows in Herodotus's footsteps, visiting many of the same places and meeting many of the same people. But

Kapuscinski also brings his own unique perspective to the journey, reflecting on the ways in which the world has changed since Herodotus's time.

Travels With Herodotus is a fascinating and thought-provoking book that offers a unique perspective on the past and its relevance to our own time. Kapuscinski is a master storyteller, and his writing is both lyrical and insightful. He has a deep understanding of history and culture, and he is able to convey that understanding in a way that is both accessible and engaging.

If you are interested in history, culture, or travel, then I highly recommend *Travels With Herodotus*. It is a book that will stay with you long after you finish reading it.
